ABOUT ME

I am a passionate Frontend Developer with nearly 3 years of experience in crafting engaging and functional interfaces. I enjoy solving problems and collaborating within teams to create astonishing user experiences. I am always seeking to learn and enhance my skills, and I am excited about continuing to grow in the thrilling realm of web development.

EXPERIENCE

June 2022 - Present | Eunoia Digital | **Frontend Web Developer** | E-commerce, automotive, NFTs, agricultural, energy sectors, health care sectors

- Development of custom web applications that have revolutionized how our clients conduct business, providing them with innovative and functional solutions.
- Collaboration with UX/UI designers and backend teams to implement project-specific features and functionalities.
- Regular maintenance and updates of existing applications, along with the implementation of new features and enhancements as per client needs.

September 2021 - June 2022 | Movetia | **Frontend WebApp Developer for SEAT** | Automotive Sector

- Collaborated in designing and developing engaging and functional user interfaces for cars using Angular.
- Participated in meetings and working sessions with multidisciplinary teams to align requirements and ensure successful project execution.
